WE ARE COMMITTED TO OUR PLANET, OUR ENVIRONMENT, OUR COMMUNITY, AND OUR CUSTOMERS

GSI Outdoors shares a stewardship for our environment with responsible manufacturing and products born of a love for the outdoors. We strive to lower our carbon footprint by constantly evaluating the way we do things from start to finish, from product, procedure and policy.

OUR MISSION

Making quality products that are ecologically sustainable is a puzzle of many interconnecting parts. GSI Outdoors is taking on this challenge through design, manufacturing and transportation.

We design our products to be durable and long lasting, using recycled and recyclable materials wherever possible. Reducing our packaging, eliminating plastic shipping bags and printing with environmentally safe, water-based inks is key to our focus on Life Cycle Design.

GSI Outdoors is also actively working with our factories and shipping companies in value-added partnerships to implement sustainable ecological manufacturing practices.

Yet, we are not done. We know that we have a responsibility to design, manufacture and deliver the highest quality products with the least carbon footprint possible within our circular economy and make our world better for generations to come.

OUR IMPACT

We've worked with hundreds of organizations over the past 36 years in efforts to get kids in the outdoors.

Supporting the planting of 6,000 mangrove trees in Watamu, Kenya.

We are stewards of the outdoors and work with organizations to help preserve our lands.

We work closely with different organizations to increase diversity in the outdoors.

We've helped establish a sustainable drinking water source for multiple Zambian communities.

1% of the Cathole Trowel sales benefits the Leave No Trace Center for Outdoor Ethics.

ORGANIZATION PARTNERS

DESIGN:

High-quality products designed for durability and a long life. Life Cycle Design using recycled and recyclable materials and recyclable paper packaging.

TRANSPORTATION:

Customer orders packed by hand in our warehouse where we recycle boxes and use paper insulation to maximize delivery efficiency.

MANUFACTURING:

Value-added factory partnerships to implement sustainable ecological manufacturing practices.

ECO PRODUCT LINES

Cascadian:
Made of durable,
recycled polypropylene.

Microlite: Made of recycled stainless steel with a recycled, polypropylene lid.

Guidecast: Lightweight materials allow for lower carbon footprint when shipping.

Rakau: Made of FSC certified or sustainably sourced materials.

Stoves

Pinnacle Canister Stove

The Pinnacle Canister Stove is the ultimate, ultra-compact, ultralight, high-output backpacking stove. Designed for optimal efficiency, the clever folding pot supports pack small to nest within our nForm Ultralight cookware. The Pinnacle Canister Stove is the peak of our unique approach to going fast + light without making sacrifices; never has so much less meant so much more

Pinnacle 4 Season Stove

The Pinnacle 4 Season Stove's compact, high-output design with liquid feed capability is optimized for efficiency in all conditions. Thanks to clever stove legs and pot supports that fold to nest within our nForm Ultralight cookware, the Pinnacle 4 Season Stove is the peak of GSI Outdoors unique approach to going fast + light without making sacrifices; winter, spring, summer and fall.

Glacier Camp Stove

The high-output Glacier Camp Stove is the epitome of rugged power. Designed for fast, reliable cooking, the sturdy pot supports hold larger cookware while the large diameter burner head spreads heat evenly across the bases of pots and pans. The Glacier Camp Stove is the burner to carry when hunger calls and nature beckons, because time stands still for no one

Long-lasting non-stick release

A PTFE alternative, two-coat system offering excellent release and performance PPG FUSION® Pro next-generation sol-gel technology offers enhanced performance versus other Fusion coatings. The high-gloss coating withstands more than 50,000 cycles of wet abrasion testing (more than double comparable coatings) and features a specifically formulated primer and topcoat designed for long life and lasting non-stick release.
